**\*\*\*Peak Update Regarding COVID-19: March 14th, 2020\*\*\***

Peak Physical Therapy takes the safety and wellbeing of the public very seriously. Therefore, in the interest of public health, we will be following the CDC guidelines and acting with an overabundance of caution to ensure the health and safety of our patients, staff, and community.

We can assure you that we are taking the following precautions to limit germ exposure:

- screening patients and staff for symptoms of acute respiratory illness before entering our facility
- regularly disinfecting all frequently touched surfaces with a hospital grade virucide
- washing towels in hot water
- changing and discarding pillow cases after each patient

**\*\*\*We ask that you please keep us informed and work with us to maintain a safe and healthy environment and help protect those most susceptible to this virus.\*\*\***

**\*\*\*If you are exhibiting flu like symptoms (fever, cough, shortness of breath) we ask that you please stay home to avoid putting others at risk.\*\*\***

We will continue to monitor this situation and keep everyone as informed as possible.

We thank you for your cooperation.

Your team at Peak Physical Therapy.
